Projects

01/2023

MEDIUM CLONE WEBSITE, *Medium app building challenge*

Medium is a platform i love alot . This app was built using firebase ,tailwind css, html. it supports user authentication and an identical user interface as the origin medium app.

I came about buiding this web app as a challenge from a friend who said i can never build a web app which looks like medium app visually

2023

JABBAR'S BLOG, *favourite blog for everything information* [↗](#)

I had a lot of fun time creating my personal Blog. i am a someone who does not like to miss out in some of the most important information around so I thought why not create a blog that others can also benefit from.

This is my official blog , where I share everything about Information ,ranging from tech, politics ,religion, lifestyle. i created this using nextjs, tailwindcss,sanity and hosted on varcel.

11/2022

PIZZA ORDERING APP [↗](#)

I love pizza's . Who doesn't love pizza? I was learning framer motion and i taught to myself why not create a pizza related app using the knowledge I have from framer motion and react.js. It was created using html, CSS and framer motion and deployed on netlify.

2022

SATISFACTION EATERY [↗](#)

This is my first trial to using Tailwind css . i wanted to build a simple responsive webpage . This page was built with only tailwind css, html and svg images.
